DETAILED ACTION

Allowable Subject Matter

Claims 1-28 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 22 recite that a controller generates an item reorder signal in response to detection of a given transponder having crossed the boundary and having item identification data indicating a consumable status. Security systems and inventory monitoring systems (Shaw, US patent 6,568,596 for example) appear to be the closest art. Drug inventory systems appear to combine security and inventory, but none of the prior art shows the combination of elements claimed.

Wisbey's foreign patent, GB 2271692A, shows a system of tracking vehicles with RF tags, but does not meet the limitations of the claim.

Gurin's non-patent article, "packagers think outside the box" from applicant's IDS, shows the tracking of parcels with RF signals, but does not meet the limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Cuff whose telephone number is (571) 272-6778. The examiner can normally be reached on 8:00 to 5:30.
